

Sam Jones

Bellingham, WA | 360-535-3478 | samejones2018@gmail.com

As a dedicated Full Stack Developer with expertise in responsive web design, I create user-centric web experiences with simplicity and effectiveness. Certified by UC Berkeley Coding Bootcamp. I utilized my problem-solving abilities and understanding of user needs. I'm committed to delivering exceptional web solutions that cater to diverse audiences and exceed expectations.

Education

Full-Stack Web Development | UC Berkeley Extension

- Acquired full-stack skills through an intensive program. Developed proficiency in debugging, code optimization, effective communication, and Agile ways through hands-on projects and real-world applications.
-

Projects

Four-leaf Casino

- Developed a secure and efficient backend system for a four-leaf casino project, ensuring smooth operation and seamless integration with front-end components.
- Implemented robust user authentication and authorization mechanisms, including role-based access control, to safeguard sensitive data and protect against unauthorized access.

Weather Application - [Click here](#)

- Built a responsive Weather Forecast application utilizing React, Webpack, Babel, and Express.js, in addition to HTML, CSS, and JavaScript. This application provides real-time weather data and multi-day forecasts.
- Incorporated OpenWeatherMap API for delivering precise, location-specific weather information, empowering users to conveniently plan their activities based on the current and upcoming weather conditions.

Social Platform - [Click here](#)

- Developed a feature-rich Social Platform with full CRUD (Create, Read, Update, Delete) functionality using Node.js, Express.js, and Sequelize.
 - Implemented features such as user profiles, post creation, commenting and liking functionality, providing a seamless and interactive platform for users to connect and interact with each other.
 - Created a clean and responsive user interface using Bootstrap and custom CSS, and ensured secure user authentication using express-session and cookies.
 - AWS S3 for robust, scalable file storage and retrieval.
-

Skills

- Programming Languages: JavaScript, HTML, CSS, Python
- Front-end Frameworks: React, Bootstrap
- Back-end Frameworks: Node.js, Express
- Database Management: SQL, MySQL, MongoDB
- Version Control: Git, GitHub, GitLab
